

Northeast Advanced Manufacturing Consortium

www.namcnetwork.com

The consortium provides a forum for employers, educators, MassHire Workforce Boards, Career Centers and other key stakeholders, to communicate needs & coordinate planning to cultivate a skilled labor pool of manufacturing professionals that meet the needs of our regional employers. Our area of work:

Do you have up-to-date skills or credentials to support your recent work experience? Are you employed in competitive job market? If not, you may want to explore training options. For a local career center go to:

www.mass.gov/masshire-career-centers

If you are not sure how to find appropriate training or if you are unable to decide what training course is right for you, we can help you by:

Providing assistance - evaluating your current skills

Helping you choose - vocational training program that meets your needs

Supplying information on approved training programs

Helping you complete all required applications

Work with you throughout your training participation

Help you market your new skills to land your next job

Apprenticeship Services - TRAINING Opportunities for NEW Hires & EXISTING Employees

NAMC offers free technical assistance to employers on how to implement customized registered apprenticeships. |
Apprenticeship programs can assist employers in addressing common labor issues such as high turnover, employee retirements, and having skilled workers able to meet the challenges of today's technologies.

Employer benefits:
